DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-27, 34 and 37 are drawn to a data mining system and method for analyzing the results [e.g., data] of predictive models, classified in class 707.
 - II. Claims 28-32 and 35 are drawn to a method of analyzing financial transactions, classified in class 705.
 - III. Claims 33 and 36 are drawn to a method for building a website, and generating a user interface, respectively, classified in class 717.
 - IV. Claims 37-40 are drawn to a knowledge processing system and method for analyzing the activities of an entity, classified in class 706, subclass 48.
- 2. The inventions are distinct, each from the other because of the following reasons:

Inventions I-IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions focus on four diverse functions involving the use, handling, control and management of data, consistent with the following: using data mining techniques to analyze resultants of predictive models; performing business processing functionality in financial and transactional analysis; generating a website and related user interface in order to incur functional analysis
